Frank,

Any word on whether you can fit this in or not?

Tim

Frank,

Please can you assist with Pete's request below. Buster is out in the field and has indicated long daily work hours which may not give him the time to undertake this task. Are you able to meet this deadline?

Thanks,

Ben Nwosu

Subject: Holy Trinity Fence Measurement

Hey Guys,

I need a quick and dirty map. The attached zip file (rename the file extension from .piz to .zip) contains GPS points collected this morning. The points represent the proposed fence line that EPA plans to have installed at the end of the month. Please download the file, convert to a shape or geodatabases file and plot the points. One set of points are form a round circle near the cemetery. Please connect the points to form a circle and provide the linear footage on the map. There is a second series of points adjacent to the highway in the shape of a horse shoe. Connect these points (leaving the top of the horse shoe open) and provide the linear footage. Any chance on getting this today or tomorrow morning?

Thanks.

-Peter
